The death of William Roberts, keeper of the Madison county poor house was particularly sad, when it is remembered that his demise was caused from over-exertion in working with a patient who had become delirious. This occurrence should lead the fiscal court to reconsider its recent action in refusing to donate a sum to the Patti A. Clay Infirmary and attempt to attend to the patients at the poor house. The eight hundred dollars given the infirmary paid for the care and attention of all pauper patients, and they had every attention needed. We do not question the court's sincerity of belief that the new plan was the best, but the death of Roberts is enough to prove the plan will not work. We would respectfully suggest that the court reconsider the matter, and should the members decide to return to the old plan, we are satisfied that they will not only be doing a good turn by the unfortunate patients, but, at the same time, assist the Patti A. Clay Infirmary, one of the best and most worthy institutions in the county.

PLAYING another man's game will always be a popular sport while human nature is human nature. Show a man a pair of loaded dice or a deck of marked cards, and for some reason he is immediately seized with a wild desire to beat them, knowing all the time that the chances are against him. A gambler always has a sure percentage against him in a professional game, as there is seldom lack of patrons where gambling runs openly. As Josh Billings says, "There's lots of human nature in folks."

It is said that the Anti-Saloon League is not now desirous of being adopted by any political party. Still you know that a politician knows a political issue when he sees it, and before the League knows what it is about it is likely to be forcibly abducted by some political party. The League should remember, also, that in case of abductions the abducted one is required to cry out as loudly as possible against its abductor before its case has a standing in law.

THE Democrats of the City of Louisville have at last concluded to quit fighting among themselves and make a united attack on the enemy—the Republican party. They have put out a fine ticket, and its election is a foregone conclusion. If Democrats out in the state will only follow suit, the state can be redeemed, and that, too, by an overwhelming majority.

It isn't so hard to make money if you only go about it systematically. There is the case of the well-dressed highwayman who in the middle of the afternoon, walked into a big bank in the Fort Worth, Texas, one of the largest cities of the South, and calmly made the cashier produce some \$8,000, after which the bandit leisurely disappeared in the crowds.

It's hard for a girl to be both popular and pretty so she general devotes her time to being just one of these things.

In time of heat prepare for cold by laying in your winter's coal supply while it is cheaper.

WATCHMEN are in the market and drug stores have laid in their supplies of paraffine.

A young married woman weeps if her husband fails to kiss her on his leaving the house, and an older married woman weeps if he does. Each thinks it is a suspicious circumstance, and they're not far wrong.

AND now that Tennessee is a prohibition state, the alleged drought in the South is extended. "Alleged" has a meaning to one who has traveled in the so-called prohibition states of the south.

A book entitled "A Dauphool in the Kentucky Legislature" is being printed in Lexington, Nicholasville News.

The author should be more explicit. Which one?

Lots of people never find out until it is too late to do them any good that the only reason they are not happy is because they do not know how to appreciate small things.

A party of Dayton newspaper men took a trip in a balloon. Since the balloons out of newspaper paper "eye editor" has been sorely put to it for methods of transportation.

STANDING news item: "The Wrights are repairing their aeroplane today, preparatory to making another flight." Sounds a good deal like automobile language, doesn't it?

The government experts are still trying to determine the question, "What is whisky?" Some people think it's the same as General Sherman said war was.

A bullfighter was killed during a contest in Mexico City.

Those bullfights are becoming nearly as brutal as our football games.

If you are not wealthy and do not belong to a prominent family, you don't stand much chance of being murdered or divorced.

SOMEbody is going to make a tremendous hit, some day, by starting a barber shop in which all the barbers will be deaf mutes.

THERE is a growing suspicion that Congress is more anxious to adjourn than it is to bring about the right kind of tariff measure.

THAT old advertising headline, "Why be fat?" seems especially significant, this kind of weather.

THE Wrights' aeroplane was all right except that it wouldn't fly.

A happy thought for today: Nobody can make you cut the lawn.

Some people are born poor and others acquire automobiles.

NEW FIRM.

T. C. Vaughn has purchased the poultry business formerly conducted by Harvey Neff. The style of the new firm is the Richmond Poultry & Egg Co., and the business will be conducted on a much larger scale than heretofore.

Democrats, Get Busy.

The ticket just named by the Republicans in this county, is composed of good men, as all are aware. This being the case, and the fact that the Rads announce that they are going to fight to the last ditch, the Democrats should now lay aside any possible petty differences which may exist in their ranks and buckle on their armor to fight the common enemy. Madison county is safely Democratic, when all go to the polls and vote, but lukewarmness has lost several battles, as is well known. Now, why not wake up to the situation, and resolve to do your duty by the party? Our ticket is composed of men thoroughly competent, men whose characters are above reproach and who will give the county an administration of which all will have cause to be proud. Don't let any little misunderstanding, or lukewarmness serve you from your duty, and there is absolutely no doubt of our party coming out of the November fight with the Rads, gulping down at our heels. Begin to think this over right now.

On Advertising.

Says an exchange: "If you too little tooter and then lay away your horns, there's not a soul in ten days will know that you were born. The man who gath'ers pumpkins in the man who plows all day, and the man who keeps a hump in the man who makes it pay. The man who advertises with short and sudden jerks is the man who blames the editor because it never works. The man who gets the business has a strong and steady pull, he keeps his trade and paper from year to year quite full. He plans his advertisements in a thoughtful, honest way, and keeps forever at it until he makes it pay."

### How They Stand.

Paris 6, Richmond 2.

In the slowest game of the season Richmond went down in defeat at the hands of the Paris team last Wednesday afternoon by the score of 6 to 2. It was all but a shut out for the Pioneers for it was not until the ninth inning that they were able to get a man around the circuit. Our boys went really close, both in fielding and batting, letting in scores on errors and failing to send runs across by not sitting at opportune times. Of course everybody is glad that this one is a thing of the past.

Comstock was on the mound for the locals, and although he allowed eight hits, with better support the score would have been quite different from what it was. Winchell pitched for Paris and was rather wild, but he got our boys to hit at enough wild ones to save bases on balls. Had they let him alone he would have walked and sent every third man. But the game is gone, and it is not worth while to talk of the "what might have been."

The score:—1 2 3 4 5 6 7 8 9—R  
Paris.....0 4 0 1 0 1 0 0 0—6  
Richmond.....0 0 0 0 0 0 0 2 2—2

### Lose To Paris Again.

The Pioneers lost another game to Paris Sunday by the score of 4 to 3. It was a close and exciting game, it requiring ten innings to decide it. The local team round out the boys got busy and sent two runs across in their half of this inning, tying the score. In the ninth it looked as though we would certainly win, but with three men on bases and nobody out, the necessary run was not forth-coming. Wills and Jocke were the opposing pitchers and although Wills pitched the best ball Jocke came out winner. Comstock pitched the tenth inning and two errors out scored the winning run for Paris.

The score:—1 2 3 4 5 6 7 8 9—R  
Paris.....2 0 0 1 0 0 0 0 1—4  
Richmond.....0 0 1 0 0 0 0 2 0—3

### Brilliant Game

No more brilliant game has been seen here than that played between Richmond and Frankfort Monday afternoon. Sensational play after sensational play was pulled off, and the crowd was kept in constant expectancy wondering what would be done next.

Maloney, Richmond's fast center fielder, made the star play of the afternoon when he ran fully thirty yards and pulled down a liner from Zar-see's bat with his bare hand. When he had hit it looked good for a east three bases, but Maloney race across the field and the ball started to the surprise of all it stuck those who were playing left field, almost duplicated this catch, a little later in the game, the only difference being that he got to his with both hands. He made a hard run and made a splendid catch. Another feature of the game was the splendid pitching of "reager and the catching of Dawson.

Reager was in fine form, allowing only no hits and striking out nine men. In only two innings, the first and sixth, did more than three men face him. They went down in one two three order in seven innings. Dawson is a tower of strength behind the bat and his coaching of Creager was superb. He seemed to know weakness of each batter and Creager showed splendid control by putting the ball wherever Dawson told him. Tifford's come in for his share of applause for his fast fielding and timely hitting. His three-bagger in the second sent Snook home. In the fourth Knox sent home home with a three-bagger to water.

Frankfort's only score came in the first round after Strader had struck out Long made a hit, Augener advanced him on an out and Zurlege sent him home with a hit over short. Yantz led the side by striking out. After his Creager had everything his way, the mighty "Basty" Wright pitched for the Lawmakers and his offerings were just to the liking of our boys, nine hits being gathered off him. Dawson was the man with the big a c. He got three hits out of four times up. Those and Baird followed him with two each. In the absence of Womble, who is no longer with the team, that grand, hard-working player, Whittaker played third base. He had only one chance and accepted it in nice style.

The score:—1 2 3 4 5 6 7 8 9—R  
Richmond.....1 1 0 1 0 0 0 0 0—3  
Frankfort.....1 0 0 0 0 0 0 0 0—1

### The Lamb Trade.

It was thought by many that the speculators who engaged lambs early in the season were paying too much and would lose money, the contrary has proved to be true and they are making good profits and it now looks as if August lambs would bring about as good a price as those taken on an earlier date.
